

# WHOLE STRUCTURE

## MAGNETIC LEVITATION CENTRIFUGAL BLOWER

### The whole machine is highly integrated

Small size, light weight, special structure design, easy installation, portable disassembly and assembly.

### PLC electronic control system

- Adopt international brand PLC. Real-time monitor the system operation data and trajectory;
- Multiple protection and early warning functions.

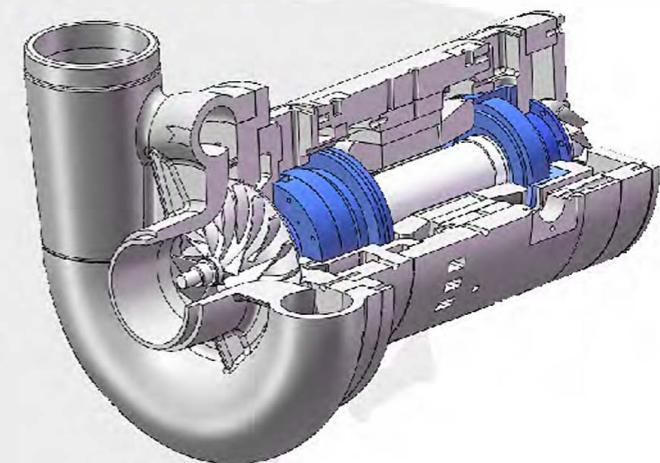

### High efficiency inverter

- Adopt well-known brand inverter. High stability and reliability;
- Provide a minimization algorithm for high speed rotation;
- By adjusting the frequency(HZ) to achieve the high speed rotation function of saving energy.

### Permanent magnet high speed engine

- The PMSM permanent magnet synchronous motor is optimized for high speed rotation. The efficiency can reach more than 97%. The inverter can be used for precise speed control;
- Precision machined ternary flow impeller;
- Five degrees of freedom magnetic bearing;
- Reliable sensor technology ensures the stable operation of the whole blower's magnetic suspension bearing system. Induced current or vortex current. Low noise and high resolution design. Integrated protection shield external magnetic fields.
- Liquid cooling/air cooling mode.

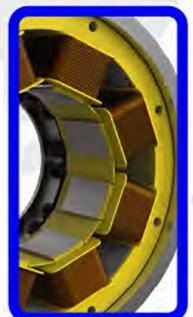

### Magnetic bearing controller

- Full digital controller;
- Superior damping function;
- Multifunctional monitoring capability;
- Efficient service interface.

### Magnetic levitation bearing sensor

- Reliable sensor technology ensures the stable operation of the whole blower's magnetic suspension bearing system.
- Induced current or vortex current.
- One sensor unit(3 displacement, 1 rotation) standby pulse sensor has four induction channels.
- Low noise and high resolution design, integrated protection shield external magnetic fields.

# COMPREHENSIVE ADVANTAGES

## Energy efficient

- 30% energy saving compared with traditional Roots blower

## Efficient Air Energy Management

-PLC control system + touch screen, real-time monitoring system operation  
-Standard Internet of Things, component background service platform, control the operation anytime, anywhere

## Low maintenance cost

-Semi-permanent design under 20 years, no iterative troubles  
-100% oil-free air-floating bearing system to avoid secondary pollution, no need for regular maintenance and replacement of bearings

## Easy to install

- The whole machine is highly integrated, small in size and light in weight  
- No foundation or anchor bolts required

## MAGNETIC LEVITATION CENTRIFUGAL BLOWER

## TURBO BLOWER

- Power: 22-750kW
- Pressure: 40-120kPa

# PARAMETER SELECTION
